Cindy Krob's Pick

I love mixed metals as it is a great strategy for adding visual interest and depth to a space. Combining silver, gold, brass, or iron (just to name a few) is an effortless way to make the pieces in your home look like they've been collected over the years.

Jenny Provost's Pick

KRION™ - one of the most versatile materials available. Composed of two-thirds natural minerals and one-third of high-resistant resins, it's as warm to the touch as a natural stone. It is antibacterial so perfect for kitchens, bathtubs, sinks but can also be used to create seamless furniture, wall panels, building fascades, dinnerware, jewelry... the possibilities are endless!

Kellye Keegan's Pick

Not your typical faucet, the LACAVA Embrace faucet is organic in shape and simply stunning in chrome. It's perfect for a statement piece in a powder of guest bathroom.

Ashleigh Barnett's Pick

The product that really caught my attention from 3S Design is the magnetic back splash. This innovation provides a creative and flexible storage solution in the kitchen. The magnetic panel can be fitted against any wall and the various magnetic shelves, hangers, holders and hooks can be arranged and rearranged in any formation that you want.
