

1 Mosaica by K2 is a custom, yet surprisingly affordable, glass and stone tile experience. Multi-colored backsplashes with interesting shapes and sparkle take kitchen design from “ho-hum” to “oh, wow!”

2 With five temperature settings, the Fisher & Paykel CoolDrawer™ is the perfect combination of intelligence and convenience. One appliance morphs from wine cooler to freezer with a simple touch.

Find these Hot List features at the K2 Kitchens Showroom.

3 An unbelievably versatile cook center, the Miele steam oven is also a convection oven. Healthier, cleaner, faster cooking in a large cavity oven. It's the future. On display at K2 Kitchens.

4 With a worldwide presence, K2 Design offers exciting wall coverings sourced around the globe. Hot for 2017 are these two exciting patterns from South African design houses.

5 Consistent back-lighting is no longer a designer's challenge. EOS panels provide even back-lighting to illuminate your most precious stone or glass. Gone are the LED strip “dots” and “lines”. Perfectly even lighting is available at K2.
